Chime Master Systems
P.O. Box 936
Lancaster, OH 43130

ATTN: Jeffrey A. Crook

Dear Mr. Crook,

I am a church member at First Baptist Church, Munday, TX. I wanted the privilege of responding to your letter inquiring of our satisfaction of the Chime Master system.

What a great awakening of times past! I can't tell you what an exciting thing it was for me when Mr. Butler told us we had the possibility of having chimes to play at our church. Although I live in the country and can't hear them all the time, I know there are others that are being reminded daily of our Savior's love when those songs are played. They also serve as an invitation to "come" to the place of worship where they can participate in His love. It may remind them of a time when they sung those songs and the Holy Spirit will awaken their souls that they can again. And the solemn and yet tender sounds of comfort they offer when we enter the church for a funeral!

I guess you can tell by this testimony that I believe we are very blessed to have your Chime Master System. The chimes, themselves, ring throughout our little city very clearly recalling a theme of fellowship and community. The number of songs that can be played is astounding. Thank you for helping our bell tower come back to life again. May God bless your efforts in offering other churches that same opportunity.

In Christ,

Brenda Floyd
Munday First Baptist Church
